Evodelta · Live

Simulation & Engineering — The professional refrigeration-cycle analysis suite on real CoolProp physics.

HONEST PRICES

PLAN	PRICE	WHAT YOU GET
Free	$0	20 calculation runs per month — standard cycle, refrigerant comparison, save & export
Solo	$49/mo	One engineer — every refrigerant, unlimited calculations, save and export
Pro	$99/mo	Everything unlimited — all refrigerants, interactive P-h diagrams, pipe sizing, cascade cycles, A2L charge limits, rack staging, reports, AI troubleshooting
Pro (yearly)	$990/yr	Same as Pro, two months free
Founding rate	$29/mo	Pro for $29/mo, locked 12 months — first 100 customers, then $99/mo

> The founding rate is real and bounded: $29/mo locked for 12 months for the first 100 paying customers, then the standard $99/mo. Every number in Evodelta traces to CoolProp — the same library the pros use.

WHAT IT DOES

- Standard, cascade, two-stage and cryogenic cycle analysis
- Interactive pressure-enthalpy (P-h) diagrams
- Refrigerant comparison across the full library
- A2L charge limits, rack staging and pipe sizing
- Client-ready PDF reports
- Every calculation runs on real CoolProp physics — never canned values

THE THERMONEURAL GUARANTEE

- Your data is yours. Everything you build in a ThermoNeural product can be exported in open formats — CSV and PDF — with one click. If you cancel, your account continues on the Free plan and nothing you created is deleted.
- Cancel anytime. You can manage or cancel your subscription yourself, from your profile, in one place. No phone calls, no emails, no retention scripts. Cancellation takes effect at the end of your current billing period.
- 30-day money-back. If your first invoice on any paid plan doesn't earn its keep, email support@thermoneural.com within 30 days of payment for a full refund. No forms, no interrogation.

GET STARTED IN THREE STEPS
